CERAMIC SIDES

RED

BLACK

WHITE

DOVE GREY

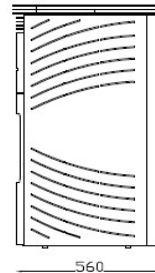

The front door is entirely black and lets the fire shine through when it is lit, hiding the combustion chamber when it is off. The Cloe is a hydro-ventilated pellet thermo-stove with adjustable and excludable hot air, this air is generated from the lower rear of the stove, crossing the top of the boiler.

Features

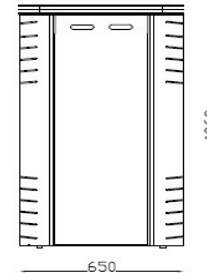

- Ash drawer
- Display with programmable functions
- Glass Cleaning Air Flow (Air Curtain)
- Room Fan (Top)

- Cast iron brazier
- Air Flow Management
- Double Door
- Ceramic glow plug
