### Pellet Utility Boiler

Optional Ash Compactor  
Up to 300 hours storage

A line of powerful and compact boilers.

The utility model pellet boilers are available with power from 25 to 35kW. They are the optimal solution for pellet heating from a technical compartment, in a small space they contain technology and efficiency. Furthermore, the Etna 35 kW represents the ultra of eco-sustainability, with 5 stars of environmental certification it reduces emissions to the minimum possible for machines of this power and performance. It also stands out for its yield which stands at 92.3%

#### Standard Features

- Ash drawer
- Display with programmable functions
- Pellet Level Sensor
- Thermostat
- Brazier cleaning
- Power regulation

#### Available Options

- Wi-Fi from smartphone
- Remote Display
- Domestic Hot Water Kit
- Remote controller
- Ash Compactor
